What's New in the?

The ultimate Twitter management tool, this Twitter application allows users to add multiple Twitter accounts, view all of their posts, schedule them for tweets, search for topics, auto tweet, read and reply to tweets. Features: - Manage your multiple Twitter accounts (Up to 10) - Schedule tweets - View all of your tweets - Search for topics - Add new followers - Reply to tweets - Auto tweet Installation: Download the TweetTwain Lite zip file and unzip it to your desktop. Double click on the TweetTwainLite.exe file to run it. Note: For Windows Vista, Windows 7, Windows 8 and Windows 8.1. You need to install Windows Media Player. Once the installation is complete, click on Add Twitter account and enter the required details to create a new Twitter account. After creating all the Twitter accounts, click on "Add Account" to add them to TweetTwain. Note: If you want to add your existing Twitter account, select the profile and click on "Add Existing Account" After adding all the accounts, you will be able to see all of your Twitter accounts and it will automatically connect to your Twitter account. You can view all the tweets and read all the replies to the tweets. NOTE: On certain web browsers such as Internet Explorer, you may experience some data loss while connecting to Twitter. In such cases, you need to update the version of Twitter for the browsers you are using. For more information, click here.
