64-bit host: export PKG_CONFIG_PATH=/usr/local/lib/pkgconfig:/lib64/pkgconfig/. If opus-tools complains about missing FLAC libraries and you don't need ... FLAC, ... just use a 64-bit host. 64 bit host with libFLAC and 32 bit libudev and its /usr/local/lib64. I don't have a 32-bit Linux distribution where I can find libudev.libudev, libFLAC and libFLAC-dev. But I have access to Windows and 64-bit WinXP. I solved this problem by importing the libraries I need.

This can be more difficult if you don't know where to look. In the following example: export
PKG_CONFIG_PATH=/usr/local/lib64/pkgconfig:/lib64/pkgconfig/.
